CAPO 2

E
If I go walking past the town signs
A
Further on down the highway
E
Theyâ€™ll be something waiting for me
B7
Iâ€™m not fooling myself again

E
You know I left this all behind
A
Long before you came across my mind
E
Nothing kept me from leaving that day
B7
But that day was nothing like today

Chorus:

C#m
I fell on my knees then
A
I prayed that change would spare me
E **B7**
And that I could stay, That I could stay
E **A** **E** **B7**
The same, old way

E
The times are flying right before me
A
Itâ€™s not like before when I was blind
E
I remember seeing only the colors
B7
Of the beautiful western skies
E
Now things are much deeper
A
Makes the darks much darker
E
But the lights shine brighter
B7

On your beautiful face

Chorus:

C#m

I fell on my knees then

A

I prayed that change would spare me

E

B7

And that I could stay, That I could stay

The same, old way

E

The colors turn and turn back again

A

There's always something to believe in

E

But that's not what your searching for

B7

No, it's something more hidden

E

You could spend your life waiting round

A

Or you could finally up and leave this town

E

But that something just followed you

B7

No matter which road you go down

Chorus:

C#m

I fell on my knees then

A

I prayed that change would spare me

E

B7

And that I could stay, That I could stay
