

Charlie Hawley - Pebble  
Misc Unsigned Bands

Intro - C Em F G

VERSE

C Em  
If I throw a pebble Down a hill  
F G  
Will it be rolling still  
C Em  
In a couple years time when you ll be gone  
F G  
And i ll still be here singing this song and,  
C Em F G  
I ve lost my sanity it ran away when you left me and,  
C Em F G(palm muted)  
oh how i wish you could help me find it

CHORUS

C Em  
Well hit me harder please  
F G  
If i don t notice you on your knees  
C Em  
I ll give you the attention that you need  
F G  
just please forgive me  
C Em  
If i don t know what to do  
F G  
All i know is I m in love with you.

(Chord progression stays the same throughout)

They say thereâ€™s plenty more fish in the sea,  
Well could you keep some back for me,  
Cause I havenâ€™t caught a good one yet  
And thereâ€™s a few holes left in my net  
If loveâ€™s a game how did I do?  
And if loveâ€™s a game are you losing too?  
If 60 billion fish arenâ€™t right for me  
Well they can all stay in the sea.

If I m alone then who s with you  
And alone plus one should equal two  
But my plus one was never you  
However much i wanted it to be.

Well, hit me harder please,  
If I donâ€™t notice you on your knees,  
Iâ€™ll give you the attention that you need just,  
Please forgive me,  
If I donâ€™t know what to do,  
All I know is Iâ€™m in love with you.

Iâ€™m singing you this song and all the while,  
I havenâ€™t noticed your perfect smile,  
Itâ€™s been like that since you were a child,  
And have I proved to you that  
Be-ing with me is worthwhile?  
We both know Iâ€™m cooler than you,  
But you always win and I always lose.  
Is this the way you wanted me to,  
Losing gracefully to you?

Well, hit me harder please,  
If I donâ€™t notice you on your knees,  
Iâ€™ll give you the attention that you need just,  
Please forgive me,  
If I donâ€™t know what to do,  
All I know is Iâ€™m  
in love with you  
in love with you

(finger picking the chords on the outro)

If I throw a pebble down a hill,  
(end on a C and let it ring)  
Will it be rolling still?
