

[Verse 2]

G **C**
One more broken promise

G **C**
Full of empty words

G **C**
They work like a virus

Em **D** **C**
Always numbing the hurt

Em
And I m still here

G
Watching the clock

Em
Asking if

C **D**
Maybe you forgot

[Chorus]

[Bridge]

C **G**
will I ever see the end
Em **D**
(everything in a hundred thousand pieces)

C **G**
feel like we re falling apart
Em **D**
(everything in a hundred thousand pieces)

C **G**
can i forget what we had
Em **D**
(everything in a hundred thousand pieces)

C **G** **Em** **D**
return to me unbroken, not in a hundred thousand pieces...

[Chorus]

[Chorus 2]

G
Everything
D
In a hundred thousand pieces

Em **D**
What you told me

C **D**
Shattered it again

G
Everything

D
You didn t even give a reason

Em **D**

Just walked on

C **D**

No hesitation

C

You can t have everything...

G

(You can t have everything...)

Em

No matter what you change

D

(No matter what you change...)

C

You can t have everything

G

No matter what you change

Em **D**

It all starts over again

[Outro]

C **G**

You, can t have everything...

Em **D**

You ve lost it all, waiting while I fade away

C **G**

You, can t have everything...

Em **D**

But i can forgive you, and all the wrong turns you made

C **G**

You, can t have everything...

Em **D**

You still have one chance to come back

C **G** **D**

You can t have everything...
