Am C G

Iâ€™m just standing here waiting for you

Am C G

The sky is getting kinda gray

Am C G

Iâ€™ve been on this same corner

Am C G

I been waiting here all day now

People coming home from work now
Wonder what Iâ€™m still doing here
Iâ€™m stuck here waiting for you
I canâ€™t move until you are near

No one sees what I see in you
Iâ€™ would let you rob me blind
I suppose I should get some help now
But Iâ€™m down to my last dime

You said you would come and meet me
You said we would get a bite to eat
You would bring me what you owe me
Then weâ€™d get a little sleep

But your not coming are you?
I feel like such a little girl
Looking out the window
When daddy never showed

Mama says go to bed, girl
That man will never come
I been waiting my whole life now
This aint very much fun
