

**Danny Wallace - How To Start Your Own Country Anthem**  
**Misc Unsigned Bands**

Another gem of a song which I couldn't find any chords for online. It's pretty simple, but you should listen to the song first to work out the strumming.

Capo 2

**G**  
Yesterday was dark and dingy,  
**A7**  
My temperament was rather wingy,  
**D** **C** **D7** **G**  
Things had got me wonderin' why I lived in London anyway,  
**D7**  
My days were grey.

**G**  
Now I welcome all and sundry,  
**A7**  
Everyone can join my country,  
**D**  
Listen if you're near them,  
**C** **D7** **G**  
Maybe you can hear them say...

**G7** **C**  
You've got to teach the world to sing,  
**G**  
Danny Wallace is the king!  
**D** **G** **G7**  
For justice and politeness are the laws which he will bring,  
**C** **G**  
Where the order of the crown is to frown upon the frown.  
**A** **D7**  
We've done a constitution and we've even wrote it down...  
**C** **G**  
Although the nation may be small it's the nicest of them all,  
**D** **G** **G7**  
A land of opportunity where crime's against the law.  
**C** **G**  
Every subject do your part, with your hand upon your heart,  
**A** **D7** **G** **C7**  
A Kingdom-come-democracy to start.

[Instrumental break/key change]

Ev ryone is just the same,  
**Gm** **F**  
It doesn't matter who you name.  
**Cm7** **Ebmaj7** **D7**  
Anyone can be a dame, or sir, or lord (but not king)

**G**  
People gather round completely  
**A7**  
Listen as I tell you sweetly  
**D**  
All across our nation  
**C** **D7** **G**  
Join the recitation with me...
