

**Danny Wallace - How To Start Your Own Country Anthem**  
**Misc Unsigned Bands**

Another gem of a song which I couldn't find any chords for online. It's pretty simple, but you should listen to the song first to work out the strumming.

Capo 2

**G#**

Yesterday was dark and dingy,

**Bb7**

My temperament was rather wingy,

**Eb**

**C#**

**Eb7**

**G#**

Things had got me wonderin' why I lived in London anyway,

**Eb7**

My days were grey.

**G#**

Now I welcome all and sundry,

**Bb7**

Everyone can join my country,

**Eb**

Listen if you're near them,

**C#**

**Eb7**

**G#**

Maybe you can hear them say...

**G#7**

**C#**

You've got to teach the world to sing,

**G#**

Danny Wallace is the king!

**Eb**

**G#**

**G#7**

For justice and politeness are the laws which he will bring,

**C#**

**G#**

Where the order of the crown is to frown upon the frown.

**Bb**

**Eb7**

We've done a constitution and we've even wrote it down...

**C#**

**G#**

Although the nation may be small it's the nicest of them all,

**Eb**

**G#**

**G#7**

A land of opportunity where crime's against the law.

**C#**

**G#**

Every subject do your part, with your hand upon your heart,

**Bb**

**Eb7**

**G#**

**C#7**

A Kingdom-come-democracy to start.
