

Dhan - A Love Like No Other
Misc Unsigned Bands

G-C-Am-D(Dsus)

i wrote this song just for you
hear my voice calling for you
your smile, those wonderful eyes
i can t deny, you got me mesmerized

our love will keep us together
my crimson heart is yours
as night embrace this thing called sky
it s you and me, plus I.L.Y

Chorus:

words are spoken laughters are heard
i remember things we shared
don t worry, i will be here
and promise, kate i love you

your kiss is unlike any other
it s a love like no other
so just stay right by my side
just let our hearts collide

so kiss me, hug me, cuddle me, and love me
and i ll hold you tight and never ever ever let go

Repeat Chorus

Note: same chords on chorus part, just convert it to powerchords
