

Dog Is Dead - Young
Misc Unsigned Bands

The lyrics probably aren't 100% correct as Dog Is Dead have very strong accents!

For the whole song, play all the chords as barred Es or Ems.....for example play

Dm as a 10th fret **Em**.

*****Apart from C/E - play that as a normal C chord (032010)

*****The last chord of the song is really a Dm, but the saxophone plays an F note,

so it sounds better if you play an F chord.. It sounds best if you play a 10th fret G chord (if you can reach!)
