DRIVE by Eric Cole - The Castenedas

Chords Verses = **B A**

Dark dark morning look at all these cars  
Look at all of these people in all of these cars  
Rain rain radios on  
Lonely songs in their ears

Chorus **D A B**

Someday soon I will find a direction  
Someday soon I will be in your arms  
Someday soon I will find a direction  
Someday soon no more lonely songs.... but in the meantime...  
We re still driving thru the rain

Why did that man leave his woman sleeping  
Why is that lonely woman weeping  
And why is the child inside me  
Screaming?

Chorus

Why must I worry  
Why must I wait  
Why must I work  
A thing I hate  
Gasoline rainbows in the water on the street  
Money to earn,filthy air to breathe  
People on my feet  
People on my head  
All these people rushin towards the same death
