Verse 1

A

Fell in love with a girl last night

I took a shot and I let her in my world

D

And everything just sprung to life

On a cold summer night in this tropic paradise

F#m **D**
(But wait) Here's the situation

A

She's in a different time zone

E

A different city half the year

F#m **D**

How do I keep the pace?

A

With the tension rising

E

And time is running out

Break: **A**

Chorus:

A

I wanna touch you so bad

D

I wanna know whats inside that head

A

Bminor D

Is it me or is it all just "make-believe".

A

I want a taste of your breath

D

From the alcohol or the cigarettes

Fmajor E

A

I don't care cause all I want is you

Verse 2:

A

Don't get me wrong about the hours apart

I've been spending my days thinking extra hard

D

While she robs the night of its youthful right getting wasted

A

She's flesh and bone and not silicone

She's out of my league

Out of my reach

D

But a thousand miles won't stop me from chasing after what I need

F#m

D

A million reasons to let this go

A

E

But just one point for me to let them know that

F#m

D

I can stick it to my own devices and

Bminor

D

Make her want to come home
