Em C
I m so cold, All alone
G D
By myself, In the dark
Em C
So I pray that it goes away
G D
But my tears keep falling down my face
Em C
I need a friend to stay with me til the end
G D
Til the stars don t shine and the Earth don t spin
Em C
No, the rain don t fall or the wind don t blow
G D
You played a good part, But I still stole the show
Em C
Yes, I ll admit I felt something that shot through my heart
G D
But now, my pain, it eats away and then it tears me apart
Em C
And I can see all of the regret that builds up in your eyes
G D

And you see me cry inside and then you can't sleep at night

Em

C

I grip my pillow tight, And I say a soft prayer

G

D

Hoping that God will answer back just so I know that He's there

Em C

G

D

And I need a person to say...

G

D

You can cry on me when the stars don't shine

C

D

I still love you boy, Yeah you blow my mind

G

D

See, I would fight for you, Grow wings and fly for you

C

D

And when you're not with me, baby, I'd cry for you

Em

C

Yes, I know things changing, Hearts keep breaking

G

D

Yes, loves a risk, It's a risk that's worth taking

Em C G D

And love...

It's what I dream of

Em C G D x2

Uh

Em

All my dreams they fade away

C

It seems like nothing's left here to stay

G

Swept from my mind and stored away

D

Let me get a pen and paper and let me guide the way

Uh

Em

It's right here, Let me seize the day

C

Color in the clouds, Make them fade from grey

G

Got a list of homies that are here to stay

D

But I guess in bad blood, There's a debt I pay

Em

I'm up here on this dreaming cloud

C

Never coming down, I'm happy now

G

Got the grace of God on my heart, In my eyes

D

All these words of evise and this hate I despise

Em

I m ahead, No stopping now

C

Eating other artists like I m on the prowl

G

But I still got a dream and this dream that I see

D

It is not clear to me, Help me boss from the seems

Em

C

Still got some issues that nobody can see

G

D

I could swallow all the sorrow, But then where would that leave me?

Em

C

I just drop down to my knees and I talk towards the sky

G

D

Something whispers in my ear, Son, you re doing just fine...

G

D

You can cry on me when the stars don t shine

C

D

I still love you boy, Yeah you blow my mind

G

D

See, I would fight for you, Grow wings and fly for you

C

D

And when you re not with me, baby, I d cry for you

Em

C

Yes, I know things changing, Hearts keep breaking

G

D

Yes, loves a risk, It s a risk that s worth taking

Em C G D

And love...

It s what I dream of

Em C G D

Ohhh oh ohhh
