

Ed Drewett - Champagne Lemonade
Misc Unsigned Bands

This is pretty much an outline to the chords of the song.
I have worked them out from the way they are played when performed on the Five Live
version on YouTube, look it up and play along to work the rhythm if needed.
You may want to tweak a few things to suit you and add your own swing to it.
Just a tip, this song sounds quite nice when fingerpicked so give that a try.

Standard Tuning.
Capo 1st Fret.
