Intro **E B A C#m B A**

```
      E              B              A  
everytime we talk, i look right into your eyes  
      C#m              B              A  
sometimes i dont know what to say, i get a little shy,  
      C#m              B              A  
but everytime you talk to me, i know that i try  
      F#m  G#m              A              B  
that i try,                to avoid a goodbye  
  
      C#m              B              A  
i know we ve liked each other for a while now,  
      C#m              B              A  
i want to show that i like you too but i don t know how,  
A              B  
so here it goes,  
  
      E  
do you wanna be together?  
      B  
we ll be happy forever  
      C#m              B              A              B  
it can happen if we both just believe.  
      E  
if we both just believe.
```
