Verse

E **B** **C#** **A**
Dont waste all seven sins on me

E **B** **C#** **A**
You know Id die to kill for you

E **B** **C#** **A**
Forever raining warm anxiety

E **B** **C#** **A**
Wearing me thin, I will give in, eventually

E **B** **C#** **A**
Save all your old connections

E **B** **C#** **A**
To all you first impressions

Chorus

E **B** **C#** **A**
Babe you kill me every night, kill me every night
(While I save you from the truth)

C# **B** **C#** **A** **B**
Bending every promise Ive been dying to break for you

E **B** **C#** **A**
As the world is burning down to you, I do this for you

Forget your hopes and dreams tonight
And pull your curtains down real tight

The setting sunlight runs right through the dust
Pain in the air, burning a glare, shadows of trust
