Am **Em**
Im standing in the dark
C **G**
Watching my world crash down
Am **Em**
My brothers and sisters
C **G**
Are falling all around
Am **Em**
And I have no one
C **G**
To call
Am **Em**
And I know
C **G**
Its all my fault

(continue the same pattern through whole song)

Im broken and helpless
And all alone
I know I dont deserve it
But could you please give me a home

Im frowned upon and shamed
They surely sneer at my name

How will I ever
Show my face

It was hard before
But now its war

And I cant
Do anything

Im broken and helpless
And all alone
I know I dont deserve it
But could you please give me a home
Some place to stay
And be loved
Cause now I cant return to
My heaven up above

I used to be so strong

And I would stand tall

And now im useless
And I feel so small

Im broken and helpless
And all alone
I know I dont deserve it
But could you please give me a home
Some place to stay
And be loved
Cause now I cant return to
My heaven up above
