Bring a twenty pack, dime sack, Party begins

Got a shotgun and a box of birds  
Hop up out the truck and ask whats the good word  
Got shrooms in the pasture growing up some laughter  
If the cops show up then it really dont matter

Round the fire just writing a song  
Got my family and friends right where we belong  
Got some peer presure but just come as you are  
You can pass out in the yard now your sleeping with the stars
