Misc Unsigned Bands

Song: 252

Artist: Gem Club

Tabbed By: Dave Grayhl

Tuning: Standard

Not sure why they aren't signed, or UG hasn't heard of them before they're brilliant.

This song I found on youtube, amazing band, bought the album it's so good! This is originally piano, I've just turned it into guitar XD

Lyrics/chords:

intro: C/Em x2

Verse 1;

 C Em
the cells of this body
 C Em
have all lost their memory
 C Em
confused by each other
 C Em
to work out of order
 C Em
and I hate that they require
 C Em Am
the need to be together
 G
how could they go wrong
 Am F C
this terrible anatomy will surely get the best of me

Chorus:

G B C
maybe they'd grow in someone else
G B C D7 B
maybe they'd grow in someone else

Verse2: same as verse 1!

we heard back to your place
it's not such a nice place
i'm still a little nervous
i thought that you would notice
and i hate that this requires
for us to be together
maybe i was wrong
a simple little strategy
to get rid of all that's wrong with me

Chorus:

maybe they'd grow in someone else

D7 B Em

watch as they grow in someone else
