

Ger - A Chance With You  
Misc Unsigned Bands

Capo 1

                  C  
But it s true  
                  D                  G          D          C  
Whatever I do, I mustnâ€™t give myself away

G                          C  
I just can t wait forever  
          D                          G  
I knew that you were mine, when I saw you  
Am                                  Em  
Though there s no way of me knowing you deeper  
C                                  D  
You don t even know I exist

G                          C  
I never want to make things harder  
          D                          G  
No, I never wanted anyone more  
Am                                  Em  
But what does it take to get you just to love me  
C                                  D  
You don t even know me at all

(Chorus)

                  C  
But it s true  
                  D                  G                  C  
Whatever I do, I mustnâ€™t give myself away  
          C                          D                          G  
Even though, I know I could lose a chance with you  
          C  
All I know s  
                  D                          Em                          C  
That you understand the things that, I just couldn t say  
          Am                                  D  
And forever now, I feel you know me too

G                          C  
Been wanting to know you better  
          D                          G  
But my words don t even come out right  
Am                                  Em  
Now my head just keeps on spinning around me  
C                                  D

Can you fill the void inside

(Chorus x3)
