Gospel Song - He Is My Everything
Misc Unsigned Bands

```
D                              A
He is my everything, He is my all
          G                           D
He is my everything, both great and small
                                                 G
He gave His life for me, made everything new
         D         A                 D
He is my everything, now how about you
                    G
Like honey in the rock
                     D
Sweet honey in the rock
          B          E           A
For He tastes like honey in the rock
            D                     G
O taste and see that the Lord is good
       D           E      A      D
For He tastes like honey in the rock
```
