

**Hes My Brother Shes My Sister - The House That Isnt Mine**  
**Misc Unsigned Bands**

Just in case anyone goes looking for a tab to this, here s a decent version I wrote up..

I also guessed on the lyrics as they aren t anywhere on the net, they re obviously close.

I believe the album version is played a step down from standard, in D which is what Rob normally tunes in. For most of the chords, Rob alternates the root/bass note from the first to third. (i.e. With Em he basically is alternating **Em** and **Em/B**)

Feel free to submit any feedback.. I could be convinced that not all the A s are A7 s and am certainly not sure about the chorus as it s slightly hard to hear.

Enjoy!
