Them hits come out soon as you hit record

Born in America, Chevy and Ford

But these Greek ladies lovin me they sayin he s foreign

Floored em, glued The crowd down by their boot straps

Came up on the scene so quick you think we was a news cast

Well news flash: I can see through that

People try to hide what s on their mind like a do rag

Never would I do that I m a real f***in hustler

You be in the background making noise like a muffler

But if it doesn't kill me it makes me tougher

And that's a message that I pass onto my brother

You never gonna really make a difference til you suffer

G

I've got some Rocket Power now so let's take off

We going hard over these beats y'all just stay soft

I don't even feel the need to say pause

Cause you would cheat to the system how you came and Bernie Madoff

I'm a firm believer that the hard work pays off

The playoffs, I treat them like Mora did

That means I'm working with a little to get more of it

And anybody who doubted us we ignoring it

I'm on a different mission

An exhibition no scoring it

So if we more legit they treat us like a compound

Yeah they wanna brake us down, never gonna stop now

Cause being scared will only eat you like a cop out

Life's a haunted house and I'm ready to pop out

And shout out to Marina for these pop sounds

I know you really love me but let's let this chorus drop now
