

**I'll Find A Way - Jupiter Falls**  
**Misc Unsigned Bands**

Strumming: DUUD (Repeat)

Intro: **D A Bm G**

Verse 1: **D A Bm G**

Some days, I wonder why  
It kills me that I am not by your side  
Iâ€™m gonna try to find a way  
to get to you tonight  
I have a place for you inside  
My heart is a room for you to hide  
Cause nobody knows you like I do

Refrain: **Bm D G A**

Can you feel me reaching out  
Can you hear me now  
Iâ€™ll keep you warm

Chorus: **D A Bm G**

When the world is broken with nowhere to turn  
and your dreams are left in the rain  
even if angels give up  
I ll find a way  
Iâ€™ll find a way

Verse 2: **D A Bm G**

Chained to yesterday  
You repeat the past waiting for change  
Leaving you cold and empty inside  
Youâ€™re lost in the night  
But Iâ€™ll be your day  
Iâ€™ll bring the light  
Pieces of us you left behind  
Cause Iâ€™ll take you home tonight

Refrain: **Bm D G A**

Can you feel me reaching out  
Hear my heart beating now  
My heart beats for you

Chorus: **D A Bm G**

When the world is broken with nowhere to turn  
and your dreams are left in the rain  
even if angels give up  
Iâ€™ll find a way  
Iâ€™ll find a way  
And even if Jupiter falls into Mars

And the skies all turn to gray  
And even if stars disappear  
Iâ€™ll find a way  
Iâ€™ll find a way

Bridge: **Bm C#m D A**

Everyone falls but Iâ€™m here for you  
Iâ€™ll show you the way if you need to get through  
When it gets tough, enough is enough  
and its all you can do

Chorus: **D A Bm G**

When the world is broken with nowhere to turn  
even if angels give up  
Iâ€™ll find a way if you need me you know that I will  
When the world is broken with nowhere to turn  
and your dreams are left in the rain  
even if angels give up  
Iâ€™ll find a way  
Iâ€™ll find a way  
and even if Jupiter falls into Mars  
and the skies all turn to gray  
even if stars disappear  
Iâ€™ll find a way  
Iâ€™ll find a way  
Iâ€™ll find a way.
