INTRO & SOLO

**F#m D E A-C# D Bm C#**

VERSE

**F#m C#m**  
For years I was trying to find out who I really am  
**F#m C#m**  
Lost inside my memories that were tearing me apart  
**D A (G#)**  
I was walking down an empty road with tears in my eyes  
**G C#**  
Trapped inside my lonely world and chained from the past

**F#m C#m**  
You've always been afraid to face the cruelty of this world  
**F#m C#m**  
Trying to stand on your feet and scream against all odds  
**D A (G#)**  
Standing on a crossroad and can't choose which way to go  
**G C#**  
Longing for a helping hand to make you carry on

CHORUS

**D E A**  
You know that I will never let you down  
**D Bm**  
I will always be beside you and hold you tight  
**C#7 F#m**  
Never let the people hurt you and never let you cry  
**D E A**  
You know that I will never let you down  
**D Bm**  
I will always be beside you and hold you tight  
**C#7 F#m C#**  
Never let you feel alone and always make you smile  
**D E Esus4 E**

For all eternity I will be your shining star

[illegible]

Lets forget the things that were holding us apart

[illegible]

Wasted years that gone by and never coming back

**D** Â **A**

[illegible]

Now we are together we can make it, so lets try

[illegible]

I don t want to see again this sadness in your eyes
