VERSE

**F#m** **C#m**  
For years I was trying to find out who I really am

Lost inside my memories that were tearing me apart

I was walking down an empty road with tears in my eyes  
**G** **C#**  
Trapped inside my lonely world and chained from the past

**F#m** **C#m**  
You ve always been afraid to face the cruelty of this world  
**F#m** **C#m**  
Trying to stand on your feet and scream against all odds  
**D** **A** (G#)  
Standing on a crossroad and can t choose which way to go  
**G** **C#**  
Longing for a helping hand to make you carry on

CHORUS

**D** **E** **A**  
You know that I will never let you down  
**D** **Bm**  
I will always be beside you and hold you tight

You know that I will never let you down
