

Its All Wrong - Borderline
Misc Unsigned Bands

Capo 2

C G Am....

I ts hard to just stand here and wash this away
The pain it runs deep as you, nothing to say
Remember when they told you that you d see the day
When all this trouble fades and then happiness came

And I wonder where they ll be
When I m lost inside of me
And I wonder what I ll see
When I can t seem to get free

It s all wrong
Oh yeah, It s all wrong

Then tell me will you go into your mind
To figure out the problems that you know you hide
Cause all those times you tried to smooth in your lines
You just gotta rise up and block out the light, ooh

And I wonder where they ll be
When I m lost inside of me
And I wonder what I ll see
When I can t seem to get free

It s all wrong
Oh yeah, It s all wrong
