**Ema j C#m Ama j Bma j**  
Remember when I called you and you finally arrived,

**Ema j C#m Ama j Bma j**  
Remember how we started, a bottle of red wine

**Ema j C#m Ama j Bma j**  
Remember when I told you that Iâ€™d love to see you smile,

**Ema j C#m Ama j Bma j**  
To put your legs around me, and your lips over mine

**Ama j Bma j**  
â€™Cause thatâ€™s the way, I knew youâ€™d say,

**Ama j Bma j**  
Itâ€™s who we are and no need wise man to explain

Remember how we laid our hearts were melting into one,  
Between the lust and passion, our life has just begun  
And then there was this feeling that thereâ€™s nothing else around  
The beauty of your body laying in the sun

â€™Cause thatâ€™s the way, I knew youâ€™d say,  
Itâ€™s who we are and no need wise man to explain

**Ema j C#m Ama j Bma j**  
Itâ€™s all the simple things that keep the love inside

**Ema j C#m Ama j Bma j**  
Just shut the lights and weâ€™ll be making love all night

**Ema j C#m Ama j Bma j**  
We might be gone again but nothingâ€™s lost weâ€™re fine

**Ema j C#m Ama j Bma j**  
This kiss â€™Good Byeâ€™ is gonna keep you satisfied

Remember how we climbed our Crystal Mountain of the night  
Oblivion around us, no gravity, no sound  
Remember how the world outside was busy going mad,

While we were hiding pleasures to find them on the way back

â€˜Cause thatâ€™s the way, I knew youâ€™d say,  
Itâ€™s who we are and no need wise man to explain

Itâ€™s all the simple things that keep the love inside  
Just shut the lights and weâ€™ll be making love all night  
We might be gone again but nothingâ€™s lost weâ€™re fine  
This kiss â€˜Good Byeâ€™ is gonna keep you satisfied
