FINE " Jaymes Reunion

Tabbed by John C.

-I tabbed this out while listening to the song, it might contain some errors but go

and fix it yourself.

The D chord is a little tricky, since I m not a chord expert i figured out that its

as a standard G chord on the 9th fret:

Standard Tuning

D Chord

```
----10----|
----10----|
----0-----|
----0-----|
----9-----|
----10-----|
```

Strumming pattern is 4/4 but with an accent on the off beat (up strum), its the way I

it but you are welcome to improvise.

Enjoy.
