FALLIN IN LOVE

Never knew someone who could take me so high
Lift me up and tell me to touch the sky
Make me believe in things that still aren t real
It s crazy I can tell you the way I really feel

G F C/E Dm

I could be losing myself in the music tonight
I could be losing myself but it feels alright

C7 F7 (x4)

Baby we could fall in love
Maybe we should fall in love
I will dance with you and fall in love
Maybe I am fallin in love

The clouds are movin underneath my feet
I don t see the faces of the people that I meet
I only understand the words I m saying to you
Is there any other feeling in the world more true

G F C/E Dm

I could be losing myself in the music tonight
I could be losing myself but it feels alright

C7 F7 (x4)

Baby we could fall in love
Maybe we should fall in love

I can t remember where I was before this
Your lips so soft underneath this breathless kiss
Let me close the door and whisper in your ear
Go some place where no one can hear me tell you

Maybe we should fall in love
I will dance with you and fall in love
Maybe I am fallin in love
