**Misc Unsigned Bands**

Intro:

**C#m - G# - / A - E B**

Verse 1:

**C#m - G# - / A - E B**

When all things seem right, but all things are wrong  
We look to ourselves, and say so long  
The tears in their eyes, such huge surprise  
Instead we hide, while they live a lie

Chorus:

**C#m A E B**

Look in the mirror, what do you find  
Looking for answers, without a fight  
There not inside  
It s not all right  
The author wrote the end.

Verse 2:

**C#m " G# / A " E B**

So say goodnight, all things in white  
I ll see you again, even in hell  
You fought a good fight, at least you think so right?  
The countless nights, you lived with your frights  
You can t find the light, you started this fight  
Now your in the land of the damned

Bridge:

**A , B , C#m, B , A, C#m**

Why does it matter  
Why do I try  
There s no truth in the mirror  
There s no where to hide
