

Jokers Daughter - Worms Head

Misc Unsigned Bands

Bm

Bm

A blanket of green split came of this stone

Bm

He threw it away from his shoe and it grew

Bm

The horses turn into cows

Bm

And sheep lie on the edge of the road

F#

The seas float across this island wind that carries through

F#

Bm

The years of all the wandering souls walking on the black mounta-intops

String portion: **Bm**

Bm

A flock of crows head towards the rocks

Bm

Eagles hover low above the sea

Bm

The wevers only grow at night

Bm

And mend to more for size in the dark

F#

The seas float across this island wind that carries through

F#

Bm

The years of all the wandering souls walking on the black mounta-intops

Bm

Now the place that you see may not be

Bm

All they seem or the one home

Bm

The ancient forest still stands tall

Bm

Their roots that lie beneath reach the shore

F#

The seas float across this island wind that carries through

F#

Bm

The years of all the wandering souls walking on the black mounta-intops

Rest of the song is **Bm**
