Capo Fret 3

**Em D Am C**

I hear they're building casinos  
A few miles from my old house  
I think I'll take all my money, And see if  
I can figure it out

**Am G D**

So I sold my guitar  
It's no use to me  
If I can't be a star, Well I will  
be the next best thing

**Em D Am C**

I thought by now that I would be your  
king and you'd be my queen  
I thought by now the world would have  
stopped just to notice me

**Em D Am C**

Maybe I'll join the navy  
Get sent to attack  
Why would I fight for a country, That doesn't  
even have my back

**Am G D**

So I sold my car  
It's no use to me  
Wherever you go, there you  
are and you aren't with me

**Em D Am C**

I thought by now that I would be your  
king and you'd be my queen  
I thought by now the world would have  
stopped just to notice me
