Misc Unsigned Bands

Band: Jukebox Gypsys
Song: Pappa Joe

This is my first ever tab/chords (so be nice please)
I have no idea what the tabs are for the Bango solos but since i dont have a bango
i dont plan to add it in
I may have a bash at tabbing it for the Guitar but as i am only a beginner and self confessed tone deaf i wouldn t hold out
much hope at me ever getting to it or even getting it any where near what the original is.

PS the simply means that the word is prolonged during singing. i know this
is not the correct way to tab it but
what the hell it helps me remember the timming of the song. Ps don t hold me to
the timing of the Chords and words.
