Not Cut Out (Original)
Katy McAllister

VERSE 1:

```
C                         G            D
She s beautiful, this I always knew
D                                            C
I m just too stubborn to admit that s true
C                          G
She s had you hooked like I never knew
D
Exacly just how to do
C                      G
And I sugar coated every dream of you
D
That you re unable to make come true
C                       G
And I lost faith the seventh time around
D
It appears as though I m still here now
Em7                      G
This doesn t mean I don t love everything about you
D
But sometimes that s not enough
Em7                      G                              D
and It doesn t mean I couldn t stick it out a few more years
D
It just means I m not that tough
                        C
Whether you like it or not
```

CHORUS:
```
C                   G
I ll be around most likely
                      D
For years to come if you need anything

But I ll never be your lover

No I m not cut out
C
For that job obviously
G                       D
I m not enough and I won t be ever if not now
                            C
Your temporary lover you lay down
```

```
   G                         D
So don t fall back on me now
                    G
Cuz I m not cut out

VERSE 2: Same as V1

I ve been in trouble since the start of the first round

and I ve dug a hole I can t get myself out

been miserable off and on for a while

Just give it two more months, wait it out

and I told myself that you came back because you love me

But it turns out that I found out it s cuz you re alone again

and you never hesitated once to leave me standing

In corners watching you choose her over me again

CHORUS

BRIDGE:
                    C
Cuz I m not cut out
     G                    D
For this, it s not worth it

From my end, I ve been over it
C                  G                 D
Too many times, too many lines
D                         G          D
I ve never seen you so clearly
                         C
You re so clear to me

VERSE 3: same as V1

Sometimes I think I know you better than you know yourself

I ll call your every move, before you move it

The only problem is that I have too much faith in you

I see the best in you, but you wont prove it
```

It s obvious that it s real love because you disgust me

And I put up with you willingly when nobody else will

Thought I could stick it out a few more years

But who s to say, you would actually stay
