          The War s Not Over

Larry Luvaul   8/16/2008

Strum Chorus
Flat Pick the Verses

Capo 1
Key C#m

Verse 1
```
C                           G                         Am
Rain falls on a moonless night, sil..ent screams grow louder.
Am                      Em                 D
Booming sounds far away, air smells like gun powder,
C                       G                    Am
And deadly flashes of light...brighten up the skies.
Am                              Em              D
Terror fills the night but I can t hear the cries.
```

Verse 2
```
C                           G                         Am
Endless burst of cannon fire, vio...lent flames own the dark
Am                      Em                 D
Explosions all night, timed to the beat of my heart
C                           G            Am
Feel the beating heart grow heavy...as I ponder
Am                      Em            D
How many lives have ended tonight I wonder.
```

Chorus
```
C                   F           C
Your war is over boy, go on home
C                   Am            C
Get a job and move on with your life.
C                       F               C
People won t understand what you have done.
C                       Am         C
Just remember God s on our side
C                           F                   C
Go on home boy, find peace where you came from.
```

Verse 3
```
C                           G                         Am
Lying in bed, rumbling sounds and brok...en shards of light
Am                              Em                              D
```

Pierces my sleep and opens my eyes wide with fright.
```
C                            G                            Am
```
Smell of ozone in the air...can t breathe heart beats fast,
```
Am                        Em               D
```
Wide awake my mind struggles to leave the past.

Verse 4
```
C                            G                            Am
```
I gaze through a dark window, search...ing the angry skies
```
Am                        Em               D
```
Thunder fills my ears, as lightning turns on my eyes.
```
C                            G               Am
```
In panic, I roll over and feel...you by my side,
```
Am                        Em       D
```
Then blessed peace comes back to me for a while

End Chorus
```
C                        F           C
```
My war s not over, since I ve been home
```
C                    Am               C
```
I got a job and moved on with my life.
```
C                            F       C
```
People won t understand what I have done.
```
C                    Am       C
```
Ever day I pray God s on my side
```
C                            F                   C
```
There s no peace when I think of where I came from.

```
        C G Am C
```

Repeat End Chorus
```
C                        F           C
```
My war s not over, since I ve been home
```
C                    Am               C
```
I got a job and moved on with my life.
```
C                            F       C
```
People don t understand what I have done.
```
C                    Am       C
```
Ever day I pray God s on my side
```
C                        F                   C
```
There s no peace when I think of where I came from.

```
        C G Am C
```

End
