[Verse 1]

D Em Bm A

(repeat for each line)

Those hardest to love need it most  
I watched our bodies turn to ghosts  
Such good friends, it has to end it always does  
That s the way life is  
Do we take that risk?

[Pre-Chorus]

G A  
And so it all boils down to this  
Bm  
We ve got our aim but we might miss  
G  
We are too fragile just to guess  
G A  
And I ve been in this place before  
Bm  
Fine as we are but we want more  
A  
That s human nature at its best

[Chorus]

G D Bm A  
What if we ruin it all, and we love like fools?  
G D A  
And all we have we lose?  
G D A F# Bm  
I don t want you to go but I want you so  
Bm A G  
So tell me what we choose

[Verse]

**D Em Bm A**

Friends, I watched us as we changed  
The feelings in my headspace rearranged  
I want you more than I ve wanted anyone  
Isn t that dangerous?

[Pre-Chorus]

**G A Bm G G A Bm A**

The anticipation before the kiss  
Mirrored in my shaking lips  
Oh god I feel so unprepared  
The two of us so out of place  
My feelings written on my face  
Got what I want but now I m scared

[Chorus]

**G D Bm A**  
What if we ruin it all, and we love like fools?

**G D A**  
And all we have we lose?
