

Lauren Aquilina - Lilo
Misc Unsigned Bands

This the version that I got off of her official facebook page, It didn't seem to be anywhere else in chord form so I thought I would upload it. Any queries? Chuck it in the comment box. :) Enjoy!

Bm A G

Do I annoy you? Do I offend you with my words?

Bm A G

Do I bore you? Am I the worst thing you've ever heard?

Bm A

Leave your mark, your black and blue bruises

G

Blood red scars, you were the one to choose this

Bm A G

We won't ever be

Forgive me, I'm just so fucked up in the head

Kiss me, whilst I set fire to our bed

Do I embarrass you beyond belief?

Is losing me such a big relief?

We won't ever be

D G

So push me on a lilo out to sea

D G

Watch me float away never to be seen again

D G

Dispose of all the things that you now hate

D G

Look at all the chaos you've escaped

A

Escaped

Bm

You've escaped

The wrong girl, the wrong body, the wrong mind

Fickle world, a constant you won't find

Start the riots no ifs no buts

I love your brain but I hate your guts

We won't ever be

So push me on a lilo out to sea

Watch me float away never to be seen again

Dispose of all the things that you now hate

Look at all the chaos you've escaped

Escaped

You ve escaped

So push me on a lilo out to sea
Watch me float away never to be seen again
Dispose of all the things that you now hate
Look at all the chaos you ve escaped
Escaped
You ve escaped
