THINGS I PANIC ABOUT

**C G Am F**

I ve got an arsenal of daggers  
I ve been keeping up my sleeve  
And the sharpest words are in my mouth  
Just kicking off my teeth

All good things end badly  
If they ever end at all  
But if everything s eventual  
Why should I stall?

**F C G F**

Thoughts go in but they don t come out  
Until I m talking in my sleep

**C G Am F**

(I m not scared of being wrong  
No, I m just scared of never being right)

All my friends are aching  
Over something in the way  
I am too but inevitably  
Everything is gonna be okay  
Whatever that means  
What the fuck does that mean?

**F C G F**

Thoughts go in but they don t come out  
Until I m talking in my sleep

**Am F G G**

And the trash can is filled to the brim  
With coffee filters and apple cores  
And the bottom is lined with broken glass  
From allegories and metaphors  
That don t help anybody anyway

**F C G F**

Thoughts go in but they don t come out  
Until I m talking in my sleep
