```
               G           C                        G
If I were the sea I would love to see you smile at me
          C                G
Walk the shore a mile with me
               Gmaj7        C                           G
If I were the trees I would love to shade you with my leaves
              C               G
I d clean the air for you to breathe
            F  C            Gmaj7     C            G
If I were you, I would love I would love I would love
             G            C               G
If I were a song I would love to be a symphony
     C            G
All together in harmony
             Gmaj7          C                                  G
If I were the earth I would love to give you all that you need
             C                G
But you keep taking more from me
            F C        Gmaj7         C            G
If I were you, I would love I would love I would love
         Gmaj7       C             G
I would love I would love I would love
           C      G            C            G
Should it be so bad To want to do something good
          C                       G
When this world tries to bring me down
         Gmaj7       C             G
I would love I would love I would love
         Gmaj7        C            G
I would love I would love I would love
            G            C                   G
If I were a book I would love to educate the youth

      C                   G
Open minds by telling the truth
           Gmaj7        C                   G
If I were a pen I would love to write to you friend
          C                    G               F C
Iâ€™d be so proud of the love we send If I were you,
        Gmaj7         C            G
I would love I would love I would love
        Gmaj7         C            G
