Lyrics and music - Leonard Lofstrand

verse:

Forever and always well that s what we said, as time passed us by this love lost
it's faith

pre-chorus:

can u feel our sorrow, are u feeling hollow? can u feel this love so tender and
close

chorus:

well I m falling further from you, and i m feeling colder too, and i think it s
all just so insane,
cause there s no way, no way that we could ever be the same

verse2:

I ve hold on to dreams without any sense, i m done with my praying that u were
my saint

pre-chorus:

can u feel our sorrow, are u feeling hollow? can u feel this love so tender and
close

chorus:

well I m falling further from you, and i m feeling colder too, and i think it s
all just so insane,
cause there s no way, no way that we could ever be the same

bridge:

can we stay just like this for a while?
can we stay just like this for a while?
can we stay like this, forever and always ?
Is it worth all of our time ?

chorus:

I m falling further from you, and i m feeling colder too, and i think it s all just so insane...

cause there s no way, no way that we could ever be the same
