verse: **Bm, G, Em, A**
Chorus: **Bm, G, A, F#m**
Bridge: **Bm, G, Em, A**

Verse:

My tears run down like razorblades
And no, I m not the one to blame
It s you or is it me?
which one of these?

And all the words we never say,
Come out and now we re all ashamed.
And there s no sense in playing games,
When you ve done all you can do.

Chorus:

But now it s over, it s all over,
can you remind me why that is?
we had the chance to make it
so please lets not waste it

Verse:

I lose myself in all these fights,
I lose my sense of wrong and right
I cry, I cry
It s shaking from the pain that s in my heart!

I just wanna crawl in bed
And throw away the life I led.
But I won t let it die,
no I won t let it die..

Chorus:

But now it s over, it s all over,
can you remind me why that is?
we had the chance to make it
so please lets not waste it

Bridge:

I m falling apart,

and i cant breath.
you re breaking my heart
It s killing me.
I m needing you, I m missing you..
why cant you see?

Chorus 2:

oh it s not over, it wont be over,
Unless you let it fade away.
It s not over, it cant be over,
Unless you let 4ever.. break away
