Artist: Linda Eder

Album: Gold

Chords by : Juscoolfella - Daryll Kyle

D A Bm G
I reserve the right for once in my life
Em D A
To lay down in a field of grass
D A
I ll be still and quiet
Bm G
Just count the stars
Bm G
From here to Mars
A
I will hold my breath

D
Until I don t care
A
Until I am sure
Bm G
Until I am strong just like before
D A
I will lie beneath the sky
G D
Til I don t love you anymore

D A
Until the stars refuse to shine
Bm G
And the moon won t come at night
D A
I won t cry, just close my eyes
G D
Til I don t love you anymore

I d walk through the fire for one last time
Just to stand beside your flame
But what good would that do if I can t have you?
How much longer must I wait?

Until I don t care
Until I am sure
Until I am strong just like before
I will lie beneath the sky

Til I don t love you anymore

Until the stars refuse to shine
And the moon won t come at night
I won t cry, just close my eyes
Til I don t love you anymore

Em **A**
Does anybody really know
F#m
Why somebody loves someone?
G **Em** **A**
The way that I belonged to only you
Em **A**
If anyone could tell me how
F#m
How to go on from now?
G **Em**
I would simply do without you
A **Asus4 A**
I d just count the hours

Until I don t care
Until I am sure
Until I am strong just like before
I will lie beneath the sky
Til I don t love you anymore

Until the stars refuse to shine
And the moon won t come at night
I won t cry, just close my eyes
Til I don t love you anymore

Until I don t care
Until I am sure
Until I am strong just like before
I will lie beneath the sky
Til I don t love you anymore

Until the stars refuse to shine
And the moon won t come at night
I won t cry, just close my eyes
Til I don t love you anymore

Until I don t care
Until I am sure
Until I am strong just like before
I will lie beneath the sky
Til I don t love you anymore

Until the stars refuse to shine
And the moon won t come at night
I won t cry, just close my eyes

Til I don t love you anymore
