Band The Living Daylights (New Artist)
Tabbed by Chase
Lyrics by: Corey Windover
Music by: The Living Daylights

E A(x4)

Verse 1

E A E A
Backing up to the different scene
E A E A
We re joyfully swimming in air
E A E A
Laying back and zealously pondering
E A E A
Nothing to which we give a care
E A E A
We re reaching new heights without any meaning
E A E A
When is it time to begin?
E A E A
I ve been basking and enjoying the time
E A E A
In the places that I have never been

D
But if history repeats itself
G
I m digging my own grave
D G
Never going to live for the love

D G
No point in breathing if I am not enjoying
D G

It s time to give the worries a shove

D

We are living on emotions

G

And everything s intense

D **G**

Nobody deserves to feel guilty (no they don t)

D **G**

We can live here in simplicity

D **G**

In a perfect state of harmony

CHORUS:

A **E**

It s time to let our hearts outside

A **E**

It s time to give affection a ride

A **E**

It s time to grip in ourselves

A **C** **E**

All the feelings that we cannot decide

A **C** **E**

Feelings that we cannot decide

Verse 2

We re meeting people

And we re creating places

We re the ones designing what s true

Wheel to the surface

And you ll know that their saying

It s impossible to scrap what is new

Moving forward but relaxing the industry

Everyone is trying to live

Impossible futures are hard to predict

Is there anything more they can give?

But then I m in a state again

And I m looking in your eyes

Trying to see a hint of pride

We ve been here so long

And don t understand

Why everybody takes their own side

We are living on emotions

And everything s intense

Nobody deserves to feel guilty (no they don t)

We can live here in simplicity

In a perfect state of harmony

CHORUS (x 2)
