

**Mariah Tapac - Love Is  
Misc Unsigned Bands**

For this song, I used a capo on the 4th fret. Thank You, I hope that you enjoy this song, as much as I enjoyed writing it.

(Verse I)

**F**            **Bb**            **C**  
I need someone in my life  
                         **C**  
Who would everyday  
**F**                                    **Bb**  
Treat me like I have a place  
                         **C**            **C**  
Like I belong  
                         **F**                                    **Bb**  
I know Ive made mistakes  
                         **C**                                    **C**  
So many times, but you could be  
**F**            **Bb**                                    **C**            **C**  
All the rights to my wrongs

(Chorus)

**F** **Bb** **C**                                    **C**  
Baby, Ive been thinking lately  
                         **F**                                    **Bb** **C**            **C**  
How to tell you how I feel  
                         **F**                                    **Bb**  
Cause every single day  
                         **C**                                    **C**  
Every time I see your face  
                         **F**                                    **Bb**            **C**            **C**  
I dont know what to do  
                         **Bb**                                    **C**  
Cause love is one in a million  
**Bb**                                    **C**  
Love is once in a lifetime  
                         **F**                                    **Bb**                                    **C**                                    **C**  
What will it take for you to be mine?

(Verse II)

**F**                                    **Bb**                                    **C**            **C**  
I should stop looking back at everything  
**F**                                    **Bb**                                    **C**            **C**  
But I cant erase the past  
**F**                                    **Bb**                                    **C**  
Memories inside my head rewind  
                         **C**

Just like a movie

**F**            **Bb**            **C**            **C**  
Replaying everything we had

(Chorus)

(Verse III)

**F**            **Bb**            **C**  
Im always thinking about  
**C**  
Every moment  
**F**            **B**            **C**            **C**  
That we both shared once before  
**F**            **Bb**            **C**  
I know youll always be a part of my life  
**C**  
But I feel so broken  
**F**            **Bb**            **C**            **C**  
And why does this feel like war?

(Bridge)

**Dm**            **Bb**  
I cant take this anymore  
**Dm**            **Bb**  
Please just take me away from here  
**C**            **Bb**  
This isnt worth the fight  
**Dm**            **Bb**  
For something impossible to find  
**Dm**    **Bb**  
And I know  
**Dm**            **Bb**  
Ill never get the chance to hold  
**C**  
You in my heart again, cause every thing  
**Bb**  
Is gone now  
**Dm**            **Bb**    **C**  
Its time for me to move on

(Chorus)

**Bb**            **C**  
Love is one in a million  
**Bb**            **C**  
Love is once in a lifetime  
**F**            **Bb**            **C**            **C**  
What will it take for you to be mine?  
  
For you to be mine, for you to be mine,  
  
For you to be mine, for you to be
