(intro piano)

**G**

I am your emergency

Break down the front door for me

**F**

Think about my perfect life

With the windows down I am driving

**G**

To a red suburban house

Round ocean floating on a memory

**F**

Of a time when life was green

**Bb**

Reality is just a dream

**Bb**

I want to build your sunshine

**C**

And operate your breathing

**G**

Electric, electric

**Bb**

The frequency in coming

**C**

You feel the pulse of my car

**G**

Electric, electric

**G**

I will come and rescue you

In perfect silence we re talking

**F**

Imagine I am the pilot

Blue skies will always remind me

**G**

Of a letter that you wrote

I fold into a paper plane

**F**

Unfold the love that is flying

**Bb**

Reality is just a dream

**Bb**

I want to build your sunshine

**C**

And operate your breathing

**G**

Electric, electric

**Bb**

The frequency in coming

**C**

You feel the pulse of my car

**G**

Electric, electric

**Bb**

My battery is a child

**C**

My love in never ending

**G**

Electric, electric

**Bb**

I am communication

**C**

I found my destination
