

Matt Webb - Stage I Remember

Misc Unsigned Bands

Hey guys this is my first guitar tab. I chose this one cause well.... It wasn't already there (somehow somehow) anyway I figured it out by ear and it sounds spot on. The strumming pattern is just straight quarter down strokes for the verses and for the Pre-Chorus is Straight down strokes. The chorus is: Down Down Up Up down Up Down. And I'm not quite sure on the bridge. Matt Webb is the guitarist/back-up singer for the band Marianas Trench

Verse

(Palm Muted)

A **Asus2**
I think this was from a while ago
A **Asus2**

I've got a scrape and a bruise or two

And the crowd got the best of you

A **Asus2**
I can see it through the picture frame
A **Asus2**
Waving arms and the lighter flame
A **Asus2**
Sing along cuz we think we're good

Sing along along cuz we know that

Pre-Chorus

(Open)

A **B** **C#** **E**
One day you and I would stand right there

You're dreaming too much

It all behind
