It s not on UltimateGuitar.com so I tabbed it out, and put it on here for you!

I hope you like it as much as I do!

All The Way Through

Chorus

Just Pick Up The Phone, Itâ€™s not hard to do, and Iâ€™m missing you  
Just Pick Up The Phone, I hope youâ€™re missing me, and maybe we could be  
Great, If you just Picked Up The Phone.

Verse 1

Your face to me is like perfection, Or at least thatâ€™s my perception  
I donâ€™t care what anyone else thinks  
Crashing down from my thoughts, I hope I donâ€™t get caught  
With my brain out of my head

Chorus

Just Pick Up The Phone, Itâ€™s not hard to do, and Iâ€™m missing you  
Just Pick Up The Phone, I hope youâ€™re missing me, and maybe we could be  
Great, If you just Picked Up The Phone.

Verse 2

I have what I think is a problem, Coz I was ready for marriage,  
And Picking Out Childrenâ€™s Names, I didnâ€™t like James  
But I did like Isabella  
I donâ€™t know what the problem is anymore, But with you, I still donâ€™t know  
The final score

Chorus

Just Pick Up The Phone, Itâ€™s not hard to do, and Iâ€™m missing you  
Just Pick Up The Phone, I hope youâ€™re missing me, and maybe we could be

Great, If you just Picked Up The Phone.
