

**Meow - All I Know**

**Misc Unsigned Bands**

just repeat this chord progression

[C] [E]  
all i know are my emotions, i cant say i know them well,  
[F] [G]  
hesitant to pick the phone up and call up jezebel  
[Am] [F]  
when i do, her brother tells me that she s due back home from school  
[C] [G]  
she ll be riding back with all her friends while i m rotting in my room

and friends they say there s more to life with a long and listless sigh,  
no, i don t need no drugs no more but they sure do keep me high

and life is always changing, it s this chapter book to me  
chapter one was much more fun, than chapter 2 will be

and then with me to chapter three and i can t plainly see  
how many of these ups and downs that there are bound to be

well, now and then i still call you up, we re still good friends, you know?  
but the last time i tried to call you up, all you said was no

and the answer to my query can be pretty widely seen,  
that this love is not as playful as you d read in magazines

these scribbles resemble words i wish i d shared with you,  
but my time is up, i ve messed it up and now i just feel screwed

well i called again my old best friend but she s still not online  
when i finally get to talk to her, she says you still sound fine

our history is just that now, no future for us then  
and with that, the b hung up on me for the last time once again

all i know are my emotions, i can t claim to know them well  
hesitant to pick the phone up and call up jezebel
