Take a deep breath
Open your eyes
Sweet slumber s over

F# F

It s time to rise

So much to alter
To rectify
I ve been here waiting

F# F

To show you why

BRIDGE 1:

Em

Backtrack, Building the road back
Stone cracks, Hammers on the attack

We ride, Over the divide
I guide, Keep you on the right side

CHORUS:

Em **C**

There s something in your past

That you can t erase

Build the road in front of you

Em **C**

D

In a couple of days

Am

So bring it back or start anew

You ll find your Bastion
Take to the skies
You ll hear the sweetest
Of lullabies

You ll learn your history
So steeped in shame

You ll feel the guilt of
The ones to blame

Cloudburst
Moving in reverse
Old curse
Thought it couldn t get worse

Still land
Company once grand
Withstand
Knuckles of your own hand
