

F **G**
Far above the hellish streets you re
Am **Em**
Strapped inside your wealthy keeps
F **G**
Piss on corners where we sleep

Am
And this town s paranoid

Am
Blinking and jumping

Em
Down in the void

Em
A sickening dumping

F
Ground to avoid

Am
The stink of the pumping

F **G**
Plague in all your hearts

F **G**
Cause the sad sad faces of the weary and worn

Am **Em**
Live in bad bad places that are dreary and torn

F **G** **A** **C**
And a distant honor calls me to your siiide

F **G**
To be your guide

Am
Shades of the whales in the tainted deep

Em
Maimed and impaled in their pain they sleep

F
The faded and frail in the laneways weep

G
Broken souls in mourning

F **G**
Cause the sad sad faces of the weary and worn

Am **Em**
Live in bad bad places that are dreary and torn

F **G** **A** **C**
And a distant honor calls me to your siiide

F **G**
To be your guide
