**Misc Unsigned Bands**

Capo 1

Intro: **Em Cadd9 D D** x4

Verse: **G Em Cadd9 D**

Can t get you out of my mind  
So I, try and get space go outside  
But then there you are  
Never very far from me here  
Try and discuss the simplicity and love of a  
Wood burning fire, in front of me  
Think of other times  
Ignore wishes that you were mine

Chorus: **Em Cadd9 D D**

Bright, bright lights  
Spotlight makes it hard to see the stars at night  
Everyday has become my stage and I  
Feel I have made  
One, two, three many mistakes

Verse: **G Em Cadd9 D**

Lets go the speed of light  
So we can stop, stand still in time  
six seventy one  
Million miles an hour we ll run  
Exist with our own rules of the world  
Where things that happen here aren t told  
Cover up with the truth  
That I m not really with you

Chorus: **Em Cadd9 D D**

Bright, bright lights  
Spotlight makes it hard to see the stars at night  
Everyday has become my stage and I  
Feel I have made  
One, two, three many mistakes

Bridge: **G D Em D**

What is fair in this fake world of reality  
I am scared that you ll go home and forget about me  
Is it yet windy enough for the city to just blow you away  
Have you gathered enough facts for you and I to be okay  
If the high road is the road we must take  
Well instead I ve now decided we don t need roads  
We ll float away  
We ll float away

We ll float away
